- International Politics
- Spanish/Hispanic Cultures

Juniata College, 2017
Huntingdon, PA

ACHEIVEMENTS

- U.S. Fulbright Fellow to Vietnam 2017
- VIA Community Fellow to Vietnam 2018

ABOUT

Inspired by thoughtful technology that betters our community, I enjoy creating software experiences, from webpages to web applications, that are user-intuitive and accessible. As a full-stack developer, I work with programming languages on both the front-end and back-end and I am committed to building upon and improving processes. I code with curiosity and dedication from project conception to completion. As a result, I aspire to develop dynamic solutions to enhance products and day-to-day operations.

EXPERIENCE

SOFTWARE ENGINEER

Resilient Coders | Jan 2021 - Present

- Designing and building full-stack web applications using HTML, CSS, JavaScript, React, Node.js, MongoDB
- Creating interactive and responsive user-experiences so that content is accessible for all
- Collaborating with team members to debug issues, to develop effective solutions, and to follow best practices
- Utilizing Agile methodology to enhance organization and performance

DATA INTEGRATION SPECIALIST

Financial Recovery Technologies | Jan 2020 - Dec 2020

- Performed quality verification and analysis on clients' financial data using SQL
- Used 3rd party data integration software (Astera Centerprise) to update and maintain client data
- Built strong relationships with stakeholders and data providers to expedite data collection and reconciliation

ENERGY & SUSTAINABILITY RESEARCH

The Stimson Center | Jan 2019 - Jun 2019

- Assisted in Geographic Information System database creation of energy, water, and transportation investments in Southeast
- Tracked political and economic developments regarding Southeast Asia, the region's relationships with neighboring countries, especially China + Japan, and US-ASEAN relations
- Proofread, edited, and assisted in the distribution of program publications

COUNTER HUMAN-TRAFFICKING SPECIALIST

Pacific Links Foundation | Jul 2018 - Dec 2018

- Supported survey design and analyzed survey data to better program implementation
- Reviewed and synthesized relevant literature in support of program research
- Contributed to NGO's counter-human trafficking efforts in the field through supporting trainings, workshops, and program efforts
